THE INSTITUTE OF HUMANBECOMING 2023

The Institute of Humanbecoming, founded in 1992 by Rosemarie Rizzo Parse, was created to offer interested nurses and others the opportunity to study the humanbecoming paradigm—a transformational worldview. Dr. Parse, the founder and editor of *Nursing Science Quarterly*, offers summer sessions in Pittsburgh devoted to the study of living quality, dignity, sciencing, and living the art of humanbecoming. Also included are the community, teaching-learning, leading-following, mentoring, family and concept inventing models, and other related topics. All of the sessions have as their goal understanding the meaning of humanuniverse as indivisible, unpredictable, everchanging. Upon completion of each session participants receive a certificate reflecting the number of hours spent in studying humanbecoming.

In 2023, the offerings include in-person sessions on:

The Humanbecoming Paradigm (Humanuniverse, Living Quality, Dignity);
Sciencing (Parsesciencing, Humanbecoming Hermeneutic Sciencing); Living the Art (True Presence)
Emerging Humanbecoming Models

All interested persons are welcome at all sessions. Please register by May 15, 2023. Make check or money order (in U.S. dollars only) payable to Discovery International at the address above. The Pittsburgh websites offer information about maps, hotels, and restaurants.
